Installing MetersSixty-Seven Put In Since December First Making Total of  
Over 300--Leaks and Bad Fixtures then Given At-  
tention--Reservoir Benefits from Rain.For the past two months the water  
department has been engaged in in-  
stalling meters, and a total of sixty-  
seven have been put in since the first  
of December, making a total of 269 in  
the city altogether. These meters are  
put in by the department, and as a  
result there is a great saving in the  
amount of water used. Attention is  
given to bad fixtures and leaky joints,  
which benefits both the department  
and the property owner. The owner  
by checking the leaks has to pay for  
less water, and the water saved all  
helps, especially at this time, when the  
reservoir is low.During cold weather in particular  
many people allow the water to run all  
night long, and when there is a meter  
this counts up rapidly, and at times  
during the present winter, with the low  
supply, places on the high points have  
been cut off of water there-  
by. In many such places and in others  
where the department has been asked  
to put in meters, the work has beendone this winter. There is a large  
amount of water which runs to waste  
through leaks and bad fixtures, and  
the department has been looking after  
these. It is claimed that there would  
not be as much opposition to meters if  
people understood how to read them.  
In a cold water meter the register  
it causes confusion. The department  
is therefore having the new meters, of  
the type which registers like the regis-  
ter in a cold water meter, the amount of  
water used showing all the time, instead  
of requiring the figuring out of the  
amount.The reservoir on Monday showed a  
four inch gain from last week, being  
202 1/2 inches above high water mark.  
There is a good sized stream coming  
in from Bog Meadow, where the excel-  
lent water shed, because of the rain  
and melting snow, is furnishing a  
large quantity of water which more  
than equals the amount used. The  
rain on Sunday amounted to .20 of an  
inch.ADDE BURNS CASE WILL
